MR . RONALD REAGAN
PRESIDENT OF UNITED STATES OF AMERICA
WHITE HOUSE , WASHINGTON D.C (U.S.A.)

MR. PRESIDENT

Putting forward our tragedy in your hands , which took place a year and half ago since the Isreale's invasion of Lebanon .Whereas our fathers , husbands . relatives , and our wives were subjected to a series of kidnapping operations done by Lebaneses militants , namely the Phalangists military party , without knowing anything about their future ,wether they are dead or alive , or their situation or place since the kidnapping date .

MR . PRESIDENT

The tragical situation which mothers , wives and children of kidnapped persons live is very miserable . Besides the fact ; That none of the illegal parties has the right to capture others' freedom , especially if they were innocent . this matter opposes the most simple human rights which is the right to live .

this tragedy of human kidnapping , doesnot stop on kidnapped persons only . but it reaches hundreds of families by surrounding our neck with a sword made of oppression and agony and the need for materialistic and moral motivation .

This tragedy destroys us , because kidnapping is most severe than killing .

MR. PRESIDENT

we had tried many times with our responsible people in the concerned official authority ; especially with our president to put

an end to this tragedy , however , up till now , we have not gained anything , except promises .

Thus , starting from our tragedy , and your concern on defending human rights and your active and effective role in our problems in Lebanon , and also the force which you could apply on the concerned parties , we are waiting an action , especially when we came to learn of your being able to release the hostages and besieged people at the city of DIER - AL QAMAR .

We are certain that you will not disappoint mothers , sisters and children , whom in the name of mercy and humanity, hope to see you freeing their beloved fathers , brothers ,and sons .

Very truly yours
