Dear Mrs Wedad Halwani,

I am writing to you as a member of Amnesty International and as a human being who feels the need to express my admiration for the Committee of the Families of the Kidnapped. I have written to your Prime Minister, His Excellency Rafiq al-Hairi to express my concern over the fate of those who have gone 'missing' including the 'disappearance' of your own husband. As a member of Amnesty International I only hope that I may do some good by writing letters to people in order to make change. I congratulate you on your dedication, and extend my hands to yours in friendship and in solidarity.

Yours faithfully,
Janis Johnson.
