Dear Mrs Wedad Halwani

I am a member of a Norwegian group of Amnesty International (Norway 114) who has been allocated the case of Adnan Musbah Halwani.

First of all we want you to know that we feel very sorry for you and your sons who have lived all these years in uncertainty. But we understand that you are a strong lady who has been fighting to get to know what has actually happened to your husband.

We thought that it was a good idea to write to you first, and if you have got new information or if you have recommendation of which Lebanese authorities we should write to, please tell us.

We hope that you and your family are well, but please write to us about your situation- perhaps we can help.

Look forward to hearing from you.

Yours sincerely

Peder Ulla
