Ras al-Nabei
Beirut

Lebanon

Dear Mr Widad Halwani,

I was informed by the independent, international human rights organisation amnesty international that widespread human rights abuses take place in Lebanon.

Amnesty international is working at human rights abuses all over the world, such as, the campaign for Israel's forgotten hostages in january 97.

Therefore, we send also to you this letter and hope that the human rights situation in Lebanon will be improved.

Especially, the fact that imprisoned people died by torture in Lebanon's jails encouraged us to appeal to you to deny yourself those kinds of abuses.

Hoping you engage yourself for the compliance with the protection of human rights in Lebanon I remain yours faithfully.
